

## **ASTRODYNE CORPORATION ANNOUNCES THE ACQUISITION OF TDI POWER**

*Combination creates a full-range global provider of power solutions*

MANSFIELD, MA – November 5, 2014 – Astrodyne Corporation announced today that it has acquired TDI Power (“TDI”) from private owners. Headquartered in Hackettstown, New Jersey, TDI designs and manufactures power supplies and integrated systems for semiconductor manufacturing, industrial, medical, mil/aero and other end markets. TDI targets demanding applications requiring precise voltage and/or current in harsh or highly variable conditions.

Astrodyne plans to continue to operate TDI Power’s Hackettstown, NJ and Shenzhen, China manufacturing facilities, and will look to create synergies that will provide additional benefits to customers.

**Pete Kaczmarek**, President and CEO of Astrodyne, said, “We are excited to welcome the employees of TDI Power to the Astrodyne family. They have built an impressive brand and have unmatched engineering capabilities in higher power applications, which complements Astrodyne’s low-to-medium power solutions and EMI filters. We look forward to continuing to build upon the company’s track record of engineering excellence, quality, and customer service. The combination of Astrodyne’s wide range of power supplies and EMI filter products with TDI Power’s expertise in high power, thermal management, and system integration makes Astrodyne a truly unique global provider of power solutions.”

**About TDI Power:** Founded over 50 years ago, TDI Power has been an innovation leader in power for Defense, Aerospace, Telecommunications, Data Storage, and other demanding industries. The company’s headquarters in Hackettstown, NJ also houses engineering and manufacturing activities. TDI has a large, modern manufacturing facility in Shenzhen, China, as well as an engineering design center in Ronkonkoma, NY.

**About Astrodyne Corporation:** Astrodyne was founded in 1994 and is a global developer and manufacturer of specialized power solutions for demanding applications, including power supplies, EMI filters, and electronic control products. The company is headquartered in Mansfield, Massachusetts, and has facilities in Norristown, PA, Elizabeth, NJ, Fremont, CA, Yorba Linda, CA, Shanghai, China, Kunshan, China, and Taipei, Taiwan.
