FOR IMMEDIATE RELEASE

**Subject: TDI Introduces the Freedom 350
Mobile Healthcare Power System at HIMSS**
Hackettstown, N.J. – January 30, 2007

Transistor Devices, Inc (TDI) will be exhibiting for the first time at the **HIMSS show** (Healthcare Information and Management Systems Society) scheduled for **February 25th – March 1st** at the **Ernest Morial Convention Center** in **New Orleans**. TDI will be displaying their new Freedom 350 Mobile Healthcare System, DC UPS for data centers, a Li Ion Mobile Power System for military applications and other power modules for custom medical equipment.

TDI is introducing the first in an expanded series of portable power sources that will dramatically increase the benefits of mobile power and carts in the Healthcare market. The Freedom Series of mobile power provides an untethered source of uninterruptible clean AC power with a typical runtime of 8 hours or more.

TDI will also be displaying its DC Data Center Power solution. Initial and operating costs can generally be reduced and system reliability increased by incorporating a

high efficiency DC UPS as an integral part of the data processing or communication equipment.

The Li Ion Mobile Power System achieves higher energy storage densities and extended runtime by use of Li Ion batteries. A sealed "air tunnel" cooling technology is also deployed to shield sensitive electrical components from exposure to sand, dirt, salt-spray and even NBC wash-down. It is also compliant with MIL-STD-810F (Environmental), MIL-STD-461E (EMI) and MIL-STD-2169B (HEMP).

TDI also supplies custom power solutions to a variety of medical equipment.

Transistor Devices, Inc. (TDI) is a global supplier of Power Systems Solutions for the Computer/Networking, Telecommunications, Military/Aerospace, Medical and Industrial markets. We have the broadest range of high technology power conversion products available in the marketplace, including DC and AC Power Systems, Power Supplies, Rectifiers, Converters and accessory equipment.

Established in 1960, TDI is headquartered in New Jersey, has over 1000 employees and seven facilities located throughout the world. For more information about TDI go to www.tdipower.com.
